Opening Ceremony

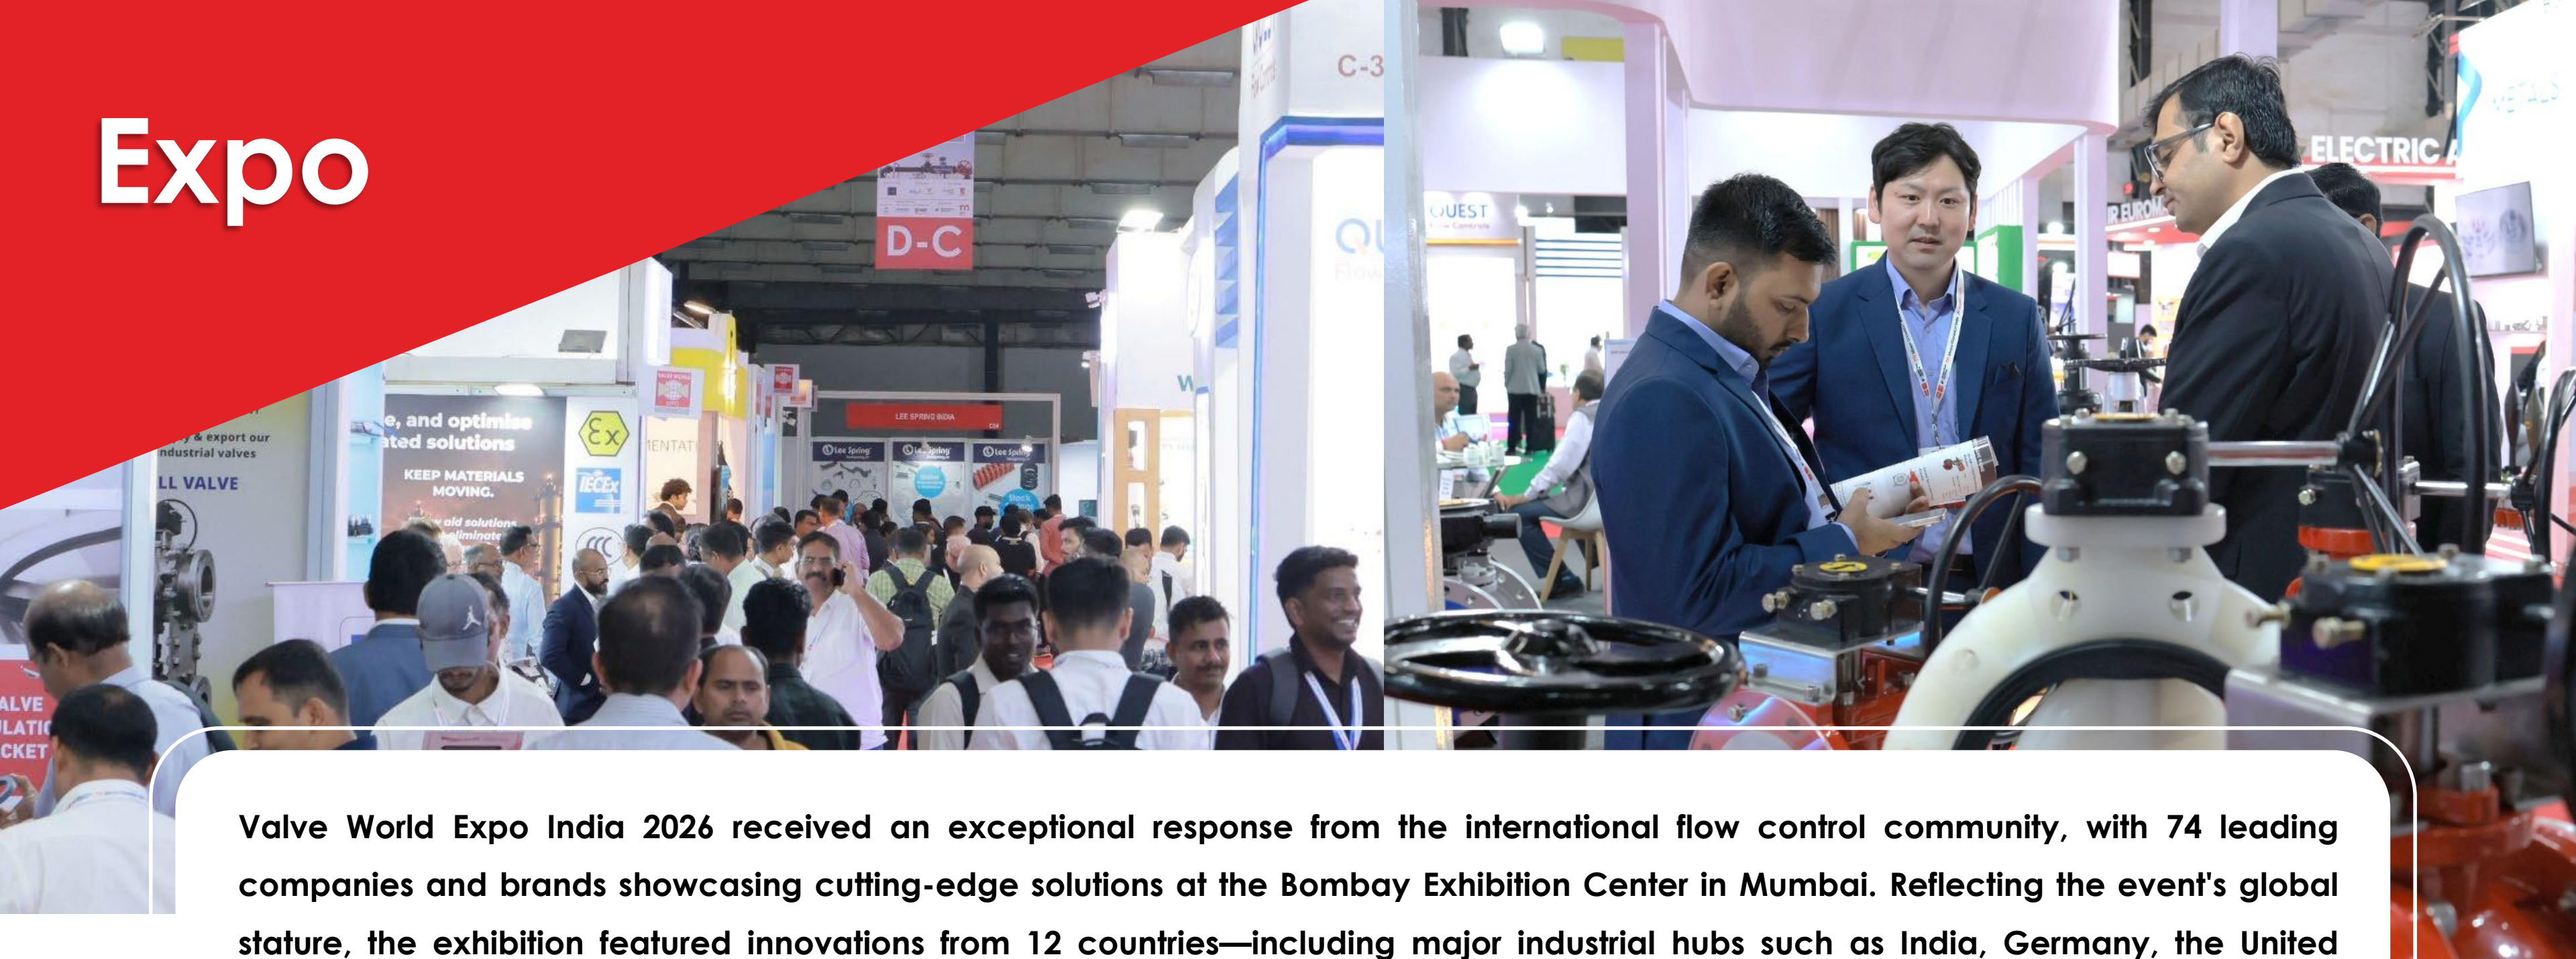

The event commenced with an enthusiastic official inauguration, marked by a traditional ribbon-cutting and lamp-lighting ceremony led by esteemed Advisory Board members, key sponsors, and industry partners. The presence of distinguished international representatives underscored the global relevance and reach of Valve World Expo India. Celebrating a shared commitment to innovation and collaboration, the opening ceremony successfully set a benchmark for the exhibition, establishing a dynamic environment conducive to high-level networking, knowledge exchange, and industry advancements.

Floor Plan

Expo

Valve World Expo India 2026 received an exceptional response from the international flow control community, with 74 leading companies and brands showcasing cutting-edge solutions at the Bombay Exhibition Center in Mumbai. Reflecting the event's global stature, the exhibition featured innovations from 12 countries—including major industrial hubs such as India, Germany, the United States, Japan, and Italy.

Over the course of the two-day event, the exhibition and concurrent Summit attracted 4,515 dedicated trade visitors, including manufacturers, suppliers, end-users, engineers, consultants, and EPC contractors. The 2026 edition provided unparalleled opportunities for strategic networking, knowledge transfer, and cross-border partnerships, firmly reinforcing Valve World Expo India as the premier B2B platform for driving technological innovation and global collaboration in the valve and industrial flow control sectors.

Summit

The summit featured keynote sessions, panel discussions, and technical presentations where leading experts shared insights on the latest industry trends, technological innovations, and operational challenges. It offered attendees the opportunity to connect with global experts, gain in-depth knowledge, and explore new business and collaboration opportunities, providing a valuable platform for professionals to exchange ideas, foster partnerships, and advance valve technologies and industrial flow control solutions.

Summit Sessions & Speakers

Keynote Speaker and Guest of Honor

Pramod Narang

Director - Technical
Petronet LNG Limited

Summit Sessions & Speakers

Technical Session

Engineering the Future: Valve Standards, Advanced Design, Materials, and Innovation in Valves & Actuators

Moderator

Pranjal

Director Engineering
Fluor Corporation

Ganesh Devale

AGM - Product Development
KSB Tech

Nicola Spreafico

Head of Sales Oil & Gas
AUMA Riester GmbH & Co. KG

Suriyanarayanan S

Senior Deputy General Manager -
Design Special Projects
L&T Valves Limited

Workshops

Designed to provide hands-on learning and actionable insights, a series of specialized knowledge-sharing workshops ran across both days with strong participation from industry professionals. Led by expert speakers and thought leaders, these interactive sessions covered the latest technologies, best practices, and emerging challenges in the valve and flow control industry. The rich technical content and engaging presentations ensured high attendance throughout the event, solidifying the workshops as a premier platform for practical learning and professional growth.

Workshop Topics

Corrosion Protection of Valves and Actuators

Hosted by:
Khanna Paint Test
Laboratory

Spray-Type Desuperheater Performance for Modern Power & Process Plants

Hosted by:
Instrumentation Limited

Optimizing the Foundry-Valve Partnership: From Casting Design to Supplier Qualification

Hosted by:
The Institute of
Indian Foundrymen

Creating Safer Plants & Processes: Integrating Mechanical & Digital Interlocks to Enhance Process, Facility & Human Safety

Hosted by:
Alcatraz Interlocks

Evolving Valve Standards: Interpretation, Compliance, and Practical Impact on Design & Manufacturing

Hosted by:
L&T Valves

Agentic AI Enabled Digital Twins of Mission Critical Systems

Hosted by:
IVAMA

Digital Control Valves and Smart Solutions for NRW: For Managing a Pipeline or Involved in Planning New Water Systems

Hosted by:
Hawle India

Africa's Industrial Valve Market Report

In an exclusive presentation, our Knowledge Partner, Market Research Future, unveiled the Africa's Industrial Valve Market Report, which provided exclusive market intelligence on high-growth global regions and spotlighted Africa's rapidly expanding industrial valve market. The session helped attendees identify emerging opportunities, industry trends, and future demand drivers by offering valuable insights into key sectors, investment trends, and regional growth prospects.

International Roundtable

The International Roundtable complemented the Industrial Valve Market Report by bringing together industry leaders, end users, distributors, consultants, and government representatives for an engaging discussion on business opportunities in Africa. The session offered practical insights into market entry strategies, procurement practices, local partnerships, regulatory requirements, logistics, and building successful long-term business relationships across the region.

Innovation Hub

The Valmet Innovation Hub was a major highlight of the exhibition, drawing substantial interest from engineers, plant managers, maintenance staff, and operations personnel. It displayed practical solutions aimed at improving plant reliability, efficiency, and performance. The hub directly reflected the industry's increasing focus on digitalization, predictive maintenance, condition monitoring, and advanced flow control technologies.

Young Engineers' Programme

The exhibition and summit provided an essential venue for engineers and technical personnel to gain knowledge and explore the latest industry advancements. The event focused heavily on knowledge sharing, technology showcases, and engineering excellence across the flow control value chain. This collaborative environment offered great exposure to the industry and allowed participants to interact directly with leading sector experts.

Industry Felicitation

The Industry Felicitation recognized exceptional individuals and organizations whose commitment, innovation, and leadership have made a lasting impact on the valve and actuator industry. Presented in association with the Indian Valve and Actuator Manufacturers Association (IVAMA), the awards honoured industry pioneers, emerging leaders, and organizations that continue to set new benchmarks in the flow control sector.

Networking Gala Dinner & Cultural Evening

Silver Partners

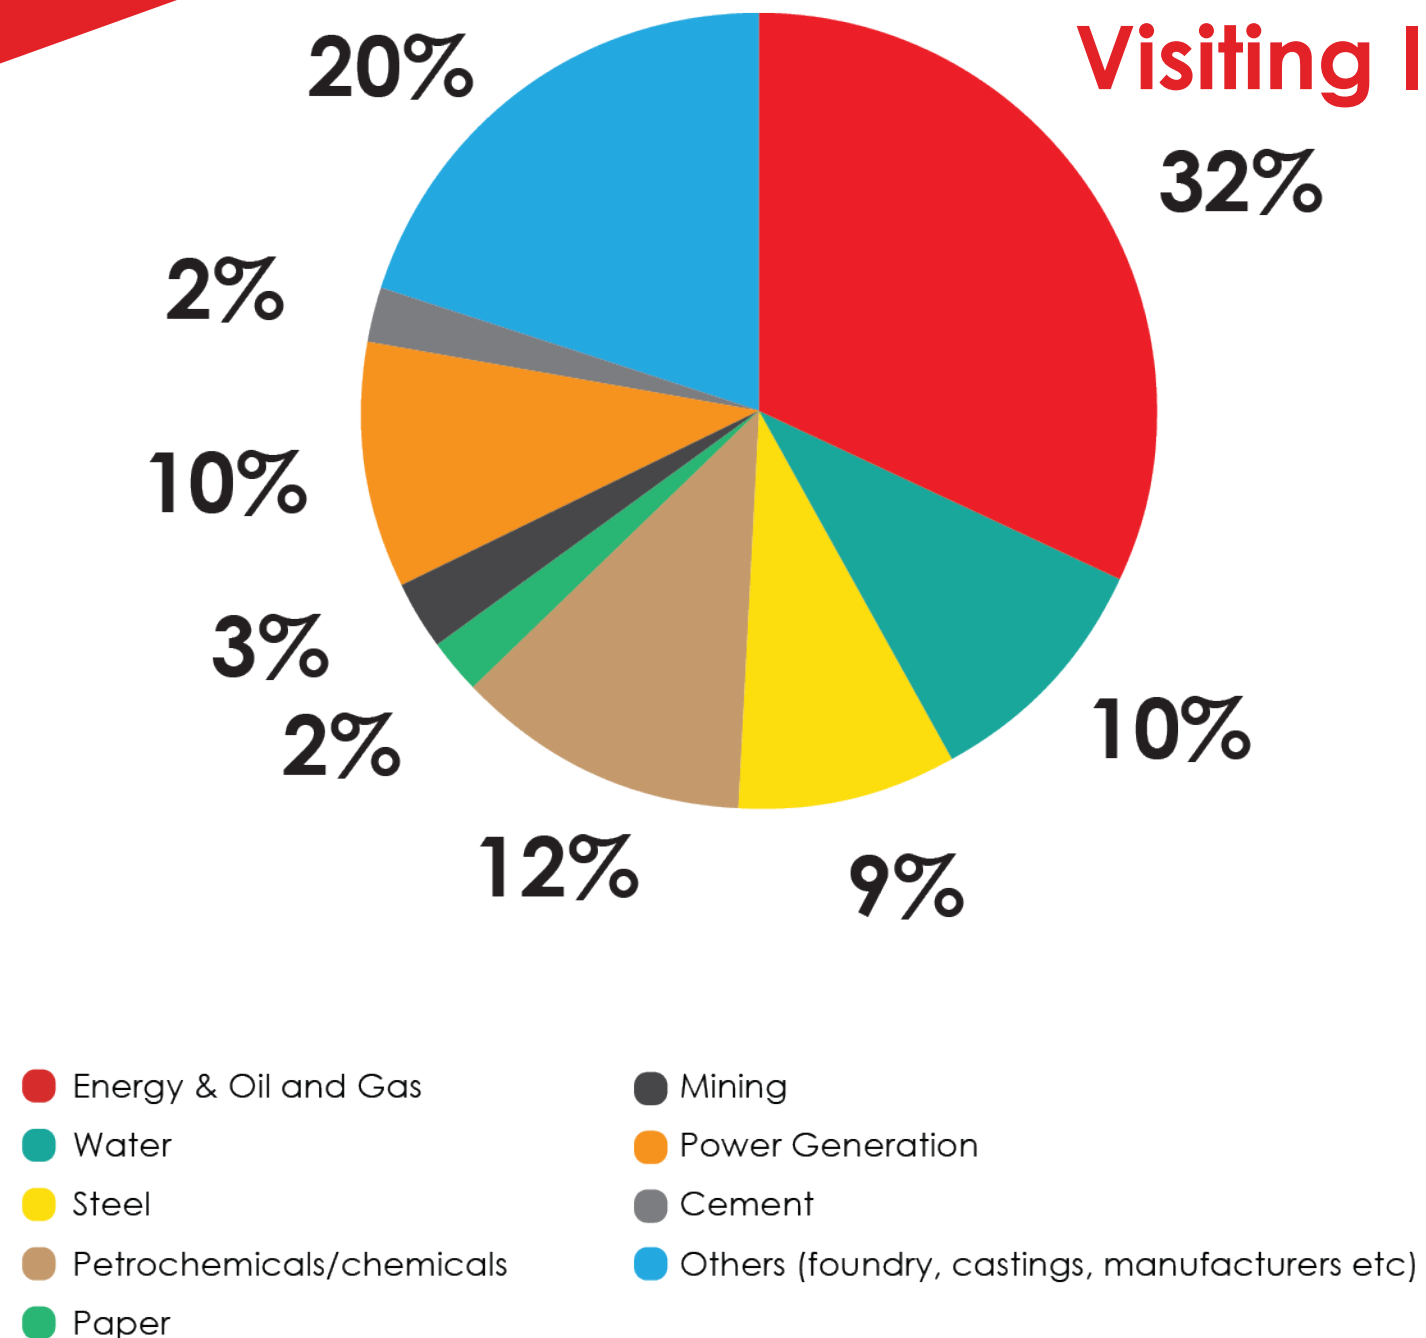

RAPID[®]
VALVES
Always in Control

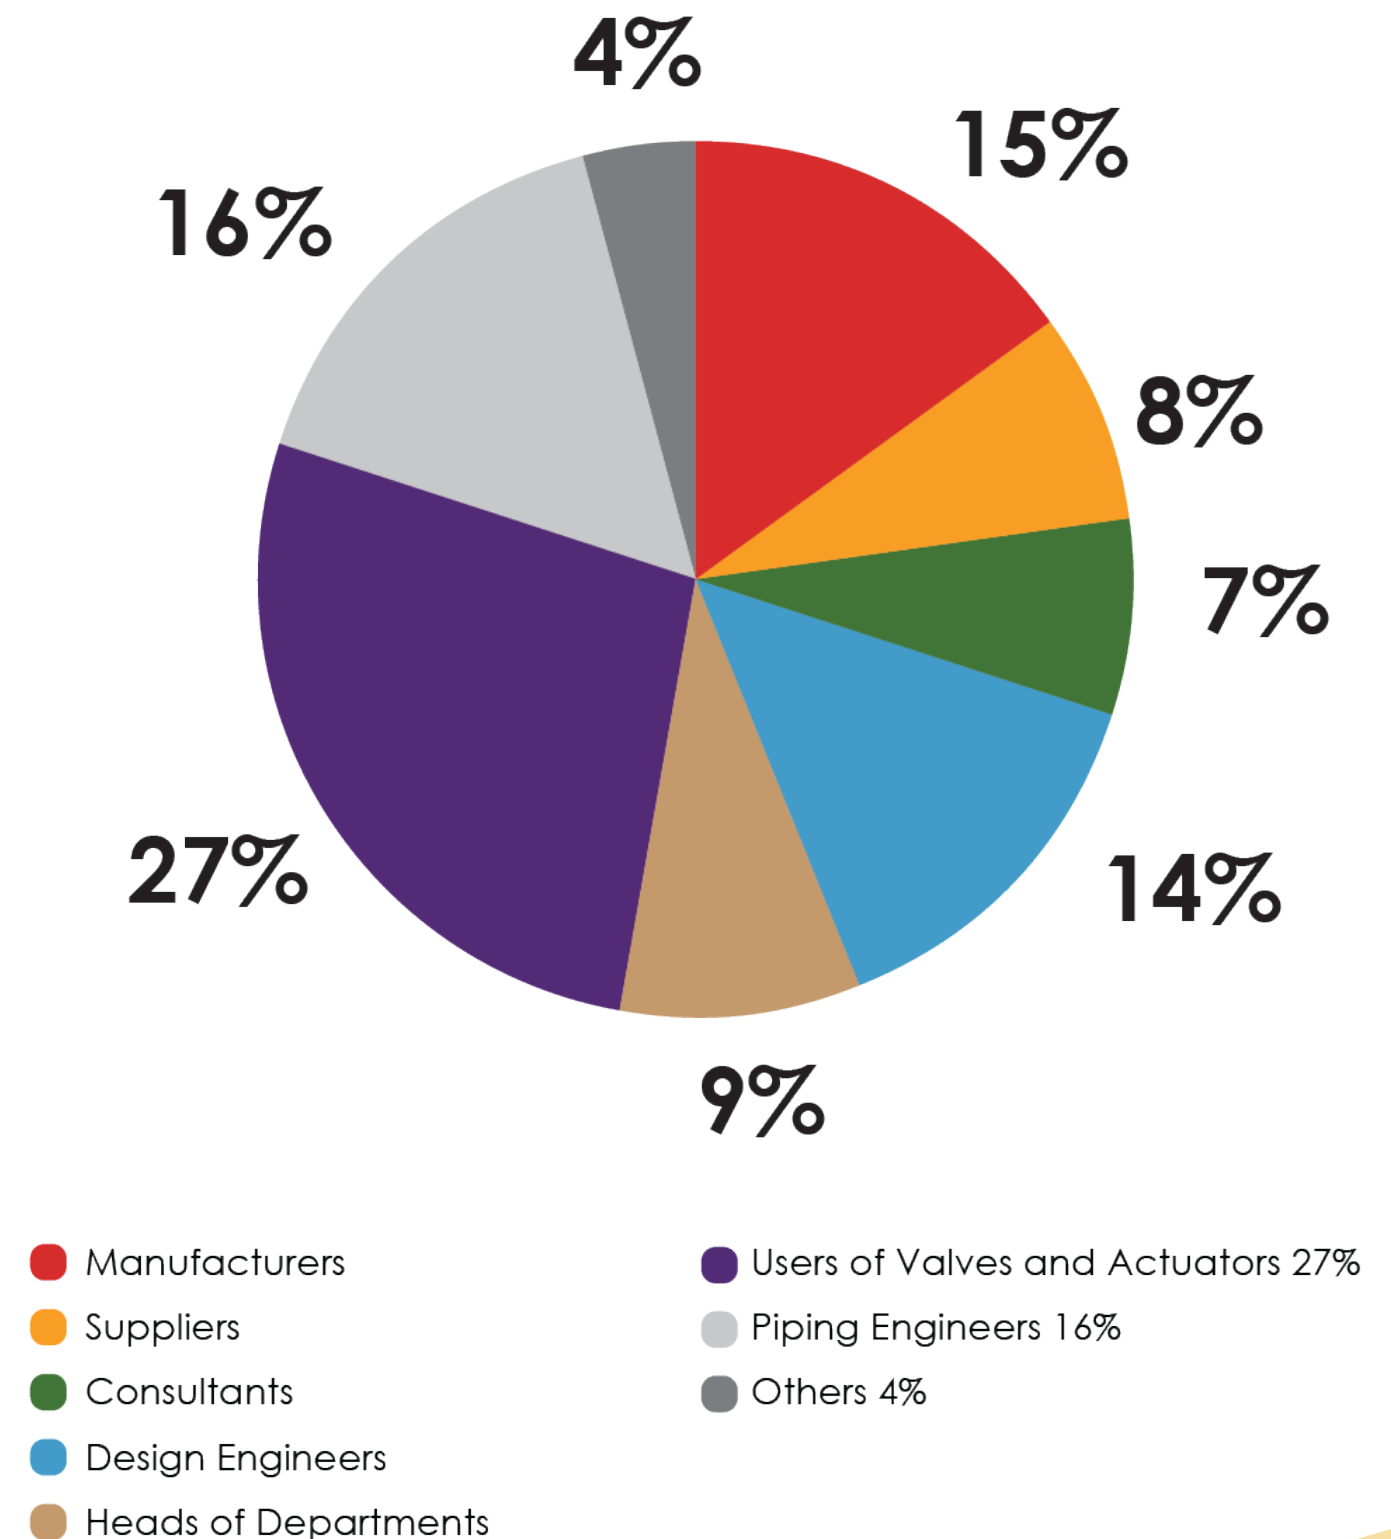

The Networking Gala Dinner & Cultural Evening brought together industry leaders, decision-makers, and global professionals for an exclusive evening of networking, recognition, and cultural celebration. It proved to be an ideal evening designed to strengthen relationships, celebrate achievements, and foster future collaborations.

Glimpses

Testimonials

Attending VWEI has been exciting and a great exposure to the industry & the experts within the industry.

Sai Krishna
AGM-Marcom,
L&T Valves (Platinum Partner)

VWEI has constantly been one of the most significant platforms. Our participation provided as with an opportunity to showcase our product and connect with the industry.

Shanky Jalan
Director- Marketing,
Valve Tech Industries (Gold Partner)

VWEI was a great experience . Their proactive approach and seamless coordination made the process completely stress free I highly recommend VWEI

Rajesh Tripathi
COO,
Rappid Valves India Ltd. (Silver Partner)

It was quite a good event. Had a lot of meaningful conversions with friends, industry professionals, great place to network, connect & learn.

JD Jones & Co (P) Ltd
Chandramouli Datta
Manager- Business
Development & operations,
JD Jones & CO (P) Ltd.

Great event for valve manufacturers, good platform to meet customer and to increase brand awareness

Deepika Mundra
Marketing Manager,
Valmet Flow Control Pvt. Ltd.

The event exceeds our expectations in terms of both content quality and networking opportunities.

Ganesh Shelar
Senior Sales Manager,
Uflow Automation

Testimonials

The event showcases the best of Indian Valve Industry . It shows the potential India has in the global stage . The VWEI is a must visit for any EPC,OEM to recognise India future.

Darshan Parekh
Director,
PGE Industries

VWEI is a very good event for valves, manufacturer & its components. It is a relevant platform to get recognised by right targeted customers

Apeksha Rao
Chief Marketing Officer,
Rajeev and Company (Kavaata Valves)

VWEI 26 provided an excellent platform for networking, generating quality business leads

Denish Patel
Senior Digital Marketing,
Ycube Engineered Solutions Pvt. Ltd.

The event is good for the exposure.
The quality of visitors matches the quality of exhibitors.

Mohammed Aatif Pathan
Territory Manager,
Cair Euromatic Automation Pvt. Ltd.

Attending VWEI 26 was an outstanding experience that exceeded all my expectations. The exhibition floor was buzzing with cutting edge technologies from advanced actuation systems and smart valves . Beyond the technical value, the networking was phenomenal.

Sunil Katwe
Partner,
Katwe Industries

the sheer volume of interested customers and high quality conversations we had this year made valve world expo an invaluable experience for creative casting ltd.

Nachiketa Bambhania
Marketing Executive,
Creative Casting Ltd.

Testimonials

VWEI 26 was on excellent platform for networking, showcasing our products and interacting with industrial professionals, The event was well organized and provided valuable opportunities.

Ravindra Khobane
Marketing Manager,
Vikson Spring Pvt. Ltd.

It was a great experience participating in VWEI. A well organised event with valuable networking and business opportunity

Sarvaiya Jaydeepsinh
Sales Engineer,
Millennium Instruments Ltd.

The valve world exhibition continues to be a good platform to engage with suppliers and customers alike.

Magwen Valves Pvt. Ltd.

we are delighted to participate in VWEI 26. the event provides an excellent platform for knowledge sharing networking and showcasing the latest developments in the valve industry . I would like to thank the organisers for creating such a vibrant & professional event.

Rishit Kumar Tilva
Director,
DL Valve Pvt Ltd
